Overview of the Capped Counter-guarantee

Financial Intermediaries must comply with the COSME Enhanced Access to Finance (EAF) Eligibility Criteria with the purpose of ensuring that the Counter-guarantee is provided to Intermediaries providing enhanced access to finance to SMEs as per the COSME programme objectives. Target SMEs for the COSME LGF are defined in the SME Higher Risk Categories¹, which provide diverse options for the Intermediary to focus on financing to those SMEs with COSME support.

The credit risk protection shall be provided through a Counter-guarantee which shall be issued by EIF acting on behalf of the European Commission for the benefit of a [specify relevant Financial Intermediary] (the “Intermediary”). It shall partly cover the credit risk associated to eligible Debt Financing granted by Sub-Intermediaries to SMEs included in the portfolio of guarantees (the “Portfolio”). Intermediary Transactions shall be covered at a guarantee rate of up to 50% (the “Counter-guarantee Rate”). For the purpose of alignment of interest, the Intermediary will have to retain a minimum 20% exposure to every Intermediary Transaction.

The Counter-guarantee is subject to a cap amount (the “Counter-guarantee Cap Amount”). This Counter-guarantee Cap Amount is calculated as follows :

¹ See page 12 of this term sheet.

Annex II to the Open Call for Expression of Interest to select Financial Intermediaries under COSME Guarantee facility

Actual portfolio volume (i.e. the portfolio volume) x Counter-guarantee Rate (as defined in the table below) x Counter-Guarantee Cap Rate (as defined in the table below). The Counter-guarantee shall constitute a financial Counter-guarantee and shall cover losses (relating to unpaid principal and interest of an SME loan for which the Intermediary Transaction was providing credit risk cover, further reduced pro-rata by any recovered amounts by the Guarantor) incurred by the Intermediary in respect of the guaranteed part of each defaulted eligible Intermediary Transaction up to the Cap Amount (the "Counter-guarantee").

The capped Counter-guarantee will be provided by EIF free of charge to the Intermediary.

The origination, due diligence, documentation and servicing of the Intermediary Transactions shall be performed by the Intermediary in accordance with agreed origination and servicing procedures. In parallel, the Sub-Intermediary shall retain the direct client credit relationship with each SME. Intermediary Transactions (according to pre-defined eligibility criteria on a transaction-by-transaction and portfolio basis) will be automatically covered, by way of submitting inclusion notices to the EIF on a quarterly basis until the end of the relevant inclusion period.

Complementarity with other financial instruments

- *Financial Instruments providing liquidity:* The counter-guarantees provided under the COSME LGF will provide partial credit risk protection for a portfolio of Intermediary Transactions. If Intermediaries and/or Sub-Intermediaries deem it necessary and if available to them, e.g. through national or regional programmes or through other institutions, they may combine the credit risk protection provided under the COSME LGF with pure liquidity financial instruments supported through other sources (e.g. supplementary EIB global loans which would bring the potential to gain access to cheaper funding and pass on a lower interest rate to SMEs through a reduction of the funding margin).
- *Financial Instruments providing partial credit risk protection:* As indicated above, counter-guarantees issued under the COSME LGF will provide partial credit risk protection (up to 50% of the final loss, capped at the portfolio expected loss). If Intermediaries deem it necessary and if available to them, e.g. through national or regional programmes or through other institutions, they may combine the credit risk protection provided under the COSME LGF with an additional credit-risk protection instrument for such portfolio, provided that, for alignment of interest, the Intermediary must retain a risk exposure of at least 20%.

Servicing and Recoveries	<p>The Intermediary shall service the Portfolio in accordance with its internal guidelines and procedures.</p> <p>Recoveries mean each and every amount, net of recovery and foreclosure costs (if any), recovered or received by the Intermediary in respect of a Loss for which a valid Payment Demand has been sent to EIF. Recoveries shall be shared between the Intermediary and the EIF pro rata to the Counter-guarantee Rate. The EIF's claims will rank pari-passu with the Intermediary's claims with regard to any Loss Recoveries.</p> <p>Alternatively, an ex-ante recovery rate may be determined and applied to any covered Losses in the portfolio. In this case, any payment made by the EIF following a call of the Counter-guarantee will be made net of such ex-ante recovery rate (i.e. there will not be any subsequent adjustment based on actual recoveries).</p>
Reporting	<p>Intermediaries shall provide EIF within 30 calendar days after the end of each calendar quarter (the 'Report Date') with quarterly information in a standardized form, including among others, information on the Intermediary Transactions included in the Portfolio, Final Recipients, and Final Recipient Transactions covered by the Intermediary Transactions (the 'Report').</p> <p>An indicative quarterly report template is attached in the Annex 2 of this document.</p> <p>Other reporting may be required from the Intermediary as per specific schedule to the Counter-guarantee Agreement.</p>
Other information	<p>Intermediaries may also be requested to provide, from time to time, further information related to the SMEs covered by the Guarantee in the context of programme evaluations and employment and growth reports. This information is required by the European Commission for reporting purposes and will be used for evaluating the COSME programme. The European Commission requests will be coordinated by EIF. Any request of additional information will be within the context of the COSME programme legal base and will follow the principle of proportionality.</p> <p>Programme evaluations: The European Commission is obliged to carry out two evaluations of the COSME programme: an interim evaluation by 2018 at the latest and a final COSME programme evaluation. In the context of these evaluations actors involved in the COSME programme (in the case of the guarantees this could be Sub-Intermediaries and Final Recipients) will have to be contacted/interviewed on a</p>

In order to track employment at the level of the final recipients, the EIF will have to establish employment reports per 31 December 2015, 31 December 2017 and 31 December 2019. In these reports the EIF shall compare the level of employment at the time when the final recipient received financing for the first time and compare it to the before-mentioned reporting dates.</p> <p>The reports will be established on a sampling base and it shall (i) be subject to applicable laws, including without limitation in relation to data protection and banking secrecy, and (ii) not be mandatory requirement nor constitute a condition precedent to the relevant Final Recipient Transaction or any eligibility criteria. Any failure to provide information shall not affect the Final Recipient Transaction granted or require the EIF or any Financial Intermediary to take any further steps. Neither the EIF nor the Financial Intermediary nor the Final Recipients or any of their employees, officers or agents shall be liable for the correctness of information or the completeness of data provided by the employment and growth report</p>
