## 1. Introduction to the InvestEU IPO Initiative

In order to support EU enterprises access to public equity markets, EIF will implement a new initiative under the InvestEU Fund (the “InvestEU IPO Initiative”).

The InvestEU IPO Initiative will seek to strengthen the European public market ecosystem by supporting investment funds targeting pre-IPO and/or public equity market investments in European SMEs and Mid-Caps, active at national level and/or cross-border. The ultimate general policy goal of the InvestEU IPO Initiative is to support companies considering a public listing and listings of companies on European trading venues.

The funds supported by EIF under the InvestEU IPO Initiative, IPO Financial Intermediaries, can support IPO activity, inter alia, by:

- Acting as an “anchor investor” in the funding round or IPO, thereby providing a strong signalling effect to other potential investors.
- Investing pre-IPO, supporting the continuity of valuation as the company migrates to a public market.
- Assisting companies with the transition from a private company to public company e.g. financial reporting standards, corporate governance and shareholder communication.
- Providing long-term capital and stability in shareholder base.
