2. Terms and objectives of EIF EGF Investment

| Policy rationale and strategic objective | The objective of this product is to support Target Final Recipients with sustainable long-term operations facing financial shortages and/or operational distress resulting from the economic downturn linked to COVID-19. For most such companies, the distress is caused by temporary setbacks, whereas their long-term prospects remain positive and business models sound. TSS will support Financial Intermediaries (managed by first time, emerging or established teams) that help keep distressed Target Final Recipients by providing them capital injections and operational restructuring, thereby saving them from bankruptcy, preserving jobs, and restarting growth. In specific, this product will support Financial Intermediaries: (i) in their fundraising period to achieve first closing or (ii) in their subscription period to have subsequent closings and reach targeted or adequate fund sizes in case of limited investor interest as result of the crisis following the COVID-19 pandemic. On a case-by-case basis, the EIF can make EIF EGF Investment to Financial Intermediaries under this product conditional to being accepted at the end of the Financial Intermediary’s fundraising period in full or in part, depending on third-party investors’ interest during the subscription period. By doing so, the EIF will provide liquidity enabling funds to reach the fund size required to execute their investment strategies in case of limited investor interest, without crowding out private investors. Via TSS, the EIF can selectively take increased stakes in Financial Intermediaries and make larger commitments (in some cases above 50% but always subject to requirements as per Investor Base of the Financial Intermediary). |
| Targeted stage | In terms of stage, the facility is expected to focus more prominently on Target Final Recipients in: ☒ Growth and expansion, including expansion through, when necessary, financing for acquisition of a business, replacement / transition capital for growth (excluding strategies intended for asset stripping). |
### Duration of EIF EGF Investment

The manager of the Financial Intermediary shall not, without EIF’s prior written consent, make or propose to investors in the Financial Intermediary to vote upon any amendments in order to extend the term of the Financial Intermediary beyond December 2036.

### Investor Base of the Financial Intermediary

At least 30% of total commitments to Financial Intermediaries, excluding the EIF EGF Investment are made by independent private investment sources (as set forth below):

- EIF/EIB own resources, invested at own risk and excluding public parts of mandates
- Financial institutions (investing at own risk and from own resources)
- Private endowments & foundations
- Family offices & Business Angels (including joint investment vehicles set-up by/with Business Angels)
- Corporate investors
- Insurance companies
- Pension funds
- Private individuals
- Academic institutions (including universities and public and private research institutions)
- National promotional banks/institutions investing own resources, for their own risk, and on commercial terms
- fund-of-funds provided that they invest exclusively on commercial terms and are managed or advised by a privately held asset manager, save that:
  - any fund-of-funds fully funded by state budget resources shall not be considered an independent private investment source;
  - where a fund-of-funds is partially funded by state budget resources, in pari passu with private resources invested on commercial terms, the investment made by such a fund-of-funds into a Financial Intermediary shall be considered as an independent private investment source pro rata to the amounts invested by the fund-of-funds which are funded by private resources.

Other categories of investors may also be considered private investment sources (e.g. sovereign wealth funds or fund-of-funds) where the resources invested are generated by commercial activities and are invested on commercial terms.

For the purpose of the above provisions, state budget resources shall include European Structural and Investment Funds (for e.g. Jeremie initiative).
Annex V to the Open Call for Expression of Interest to select Financial Intermediaries under EGF

In assessing compliance with the above requirements, the EIF may rely on a declaration, representation or undertaking from the Financial Intermediary.

### Requirements

Financial intermediaries receiving EIF EGF Investment:

1. Shall not engage in activities incompatible with the Guidelines on the EIF Restricted Sectors;
2. Shall not use EIF EGF investment for a participation in any Excluded Final Recipients;
3. Shall not be established in a NCJ unless the operation is physically implemented in the relevant NCJ and does not present any indication that it supports actions that contribute to Targeted Activities. The EIF will provide relevant arrangements in order for the Financial Intermediary to transpose this requirement at the level of the Final Recipients;
4. Shall undertake to comply with applicable European Union law and agreed international and European Union standards and, therefore, not support actions that contribute to tax evasion or finance artificial arrangements aimed at tax avoidance. The EIF will provide relevant arrangements in order for the Financial Intermediaries to transpose this requirement at the level of the Final Recipients;
5. Shall acknowledge the EIF Anti-Fraud Policy which sets out the policy of EIF for preventing and deterring corruption, fraud, collusion, coercion, obstruction, money laundering and terrorist financing as amended from time to time, and shall take appropriate measures (as may be further specified in the relevant agreement) to (i) facilitate implementation of such policy as well as to (ii) undertake to support investigations performed by the EIF or the European Investment Bank, the EPPO, or the European AntiFraud (OLAF), or Court of Auditors (ECA) in connection with actual or suspected prohibited conduct.
