CALL FOR EXPRESSION OF INTEREST
TO SELECT PAN-EUROPEAN FUND-OF-FUND PROMOTER(S)
UNDER THE PAN-EUROPEAN VC FUND-OF-FUNDS PROGRAMME

(Published on 8 November 2016)
And
Closing on 31 January 2017)

The objective of this Closed Call for Expression of Interest (the “Call”), launched by the European Investment Fund (the “EIF”) in cooperation with the European Commission (the “EC”), is to select interested fund-of-funds promoters under the Pan-European VC Fund-of-Funds Programme (the “Programme”), using resources of the Horizon 2020 InnovFin Equity facility, EFSI Equity Instrument and COSME Equity Facility for Growth, as appropriate.

All applications to the Programme shall be submitted to the EIF in conformity with this Call.

In this Call, capitalised terms and expressions shall have the meaning attributed to them in this document.

1. The objectives of the Programme

This Programme’s key objectives are:

a. attracting and/or increasing investment opportunities of institutional private investors (from both inside and outside the EU) in the EU VC market;

b. improving access to finance for companies seeking VC funding operating in the EU Member States and Associated Countries¹ and;

c. enabling the VC funds supported by the Fund-of-Funds(s) to reach a greater size than the average size of VC funds present in the EU.

Venture capital (“VC”) has a key role in supporting growth and offering entrepreneurs an option to raise funding both in Europe and worldwide. VC is typically long-term equity capital, channelled through funds that pool investor contributions and diversify risk. However, the European VC funds ecosystem remains relatively small. The average European VC fund is only half the size of that in the leading competitors globally and around 90% of the EU VC investment is concentrated in only eight EU Member States.

¹ Countries associated with Horizon 2020 for the activities supported by the InnovFin Equity Facility: http://ec.europa.eu/research/participants/data/ref/h2020/grants_manual/hi/3cpart/h2020-hi-list-ac_en.pdf
Public-sector risk-sharing can help increase the size of this market in Europe and the industry’s footprint, catalyse private-sector investment, help to promote scale, diversification and geographic outreach. The promotion of VC funds-of-funds could, in particular, help broaden private investment by attracting institutional investors.

As part of the Capital Markets Union initiative, the Open Innovation strand of Horizon 2020, the Digital Single Market strategy and the Start-Up Initiative of the Single Market strategy, the EU is looking to invest, through the EIF and with the support of European Fund for Strategic Investments 2 (“EFSI”), Horizon 2020 programme 3, COSME programme 4 and EIF’s own resources, in private-sector led, market-driven Pan-European VC Fund(s)-of-Funds (“the Fund-of-Funds”).

The aggregate of capital commitments EIF envisages making available to the Fund-of-Funds under the Programme amounts to at least EUR 300 million. The maximum EIF commitment to any single Fund-of-Funds shall not exceed EUR 300 million, as further set out in the Schedule 1 to this Call.

The indicative requirements for the Fund-of-Funds under the Programme are set out in the Schedule 1 to this Call.

2. The applicants

The Call is addressed and restricted to interested parties that wish to establish and manage or advise a Fund-of-Funds to be financed under the Programme, on the terms set out in this Call. The applicants, or relevant entities set up for that purpose by the applicants, shall act as the Fund-of-Funds’ manager/general partner (“GP”) or advisor (jointly referred to as the “Fund-of-Funds Promoter(s)”). A Fund-of-Funds Promoter may be an individual, a group of individuals, individual company or group of companies. In either case a single application shall be submitted with respect to a single Fund-of-Funds investment proposal. Fund-of-Funds Promoters may only be selected once with respect to a single Fund-of-Funds investment proposal.

The Fund-of-Funds Promoter(s) must submit and sign the Expression of Interest (in the form Annex I) and demonstrate clearly in their applications:

(i) while the Fund of Fund vehicle shall have to be established in the EU 5 the Fund-of-Funds Promoters are only required to have, or be prepared to establish, a substantial presence in the EU, which will at least include, to have, or be prepared to establish, in the EU an office of the Fund-of-Funds’ manager that is an active investment office which is staffed with senior investment professionals at least one of whom is a member of the Fund-of-Funds’ manager investment committee (or similar decision-making body) responsible for making the investment decisions for the Fund-of-Funds);

(ii) the Fund-of-Funds investment proposal meets the features set out in Schedule I of the Call,

(iii) if the Fund-of-Funds is operational, being, or being prepared to become AIFMD-compliant;

(iv) the Fund-of-Funds promoters have an experienced investment team dedicated to the Fund-of-Funds with a proven track record of success in:

- attracting investors, particularly private institutional investors;

- managing funds-of-funds or similar investment programmes;

---

2 Through its EFSI Equity Instrument
3 Through its InnovFin Equity facility
4 Through its Equity Facility for Growth
5 In the context of the Pan European VC Fund-of-Fund Programme, the Fund-of-Funds vehicle will need to be established in the EU. However, the InnovFin and/or COSME Equity facilities will remain available to serve fund-of-funds, which are respectively established or operating in Horizon 2020 Associated Countries and/or COSME Participating countries under terms and conditions set out in the Single EU Equity Instrument call for expression of interest (http://www.eif.org/what_we_do/equity/single_eu_equity_instrument/index.htm)
6 To this end, the Fund will be required to agree to relevant undertakings to be inserted in the Fund’s contractual documentation
- identifying investment opportunities, investing in and creating value in VC funds and/or in the successful operation of VC funds;

(v) the Fund-of-Funds Promoters do not include in their business activity and in the Fund-of-Funds’ business activity any activity which would make an investment made under the programme not compatible with the Guidelines on the EIF Restricted Sectors\(^7\) or Horizon 2020\(^8\) as amended from time to time.

4. Selection process

Upon elapse of the Call Period, all validly submitted applications will be analysed following the steps described below:

4.1 EC Pre-selection based on the Policy Fit with the Programme.

The EIF will make available to the EC all applications submitted within the Call Period. The EC will pre-select the applications, using professional analysis and judgment, based on the criteria set out in the Call relating to the Policy Fit, as further set out in section 5.1 of the Call. In its assessment, the EC may require assistance of external experts. The EC and any such external experts appointed by the EC shall be bound by confidentiality terms published alongside with this Call. The EC and its appointed expert, as the case may be, shall be bound by confidentiality in conducting such process.

The EC will assign an overall Policy Fit score to each application: “Low”, “Medium”, “Significant” or “High” based on the individual scores of the respective Policy Fit indicators. Individual scores have equal weight. Only applications with an overall score of at least “Medium” will be considered as pre-selected for further assessment by the EIF, as set forth below. Should the EIF identify, during the course of its assessment any discrepancy between the information and claims relating to the Policy Fit contained in the application, which may lead to altering the initial assessment, the EIF will notify the EC of such discrepancy and the EC may decide to reassess the overall Policy Fit score of the application taking into account such information.

The following applications shall be assigned an overall Policy Fit score of “Low” and be rejected:

- An application scored by the EC as: “Low” for indicator 5.1 a) or 5.1 b) or 5.1 e).
- An application scored by the EC as “Low” for two of any Policy Fit indicators.

The EIF shall send the rejection notice(s) to such applicants.

4.2 EIF assessment based on the Expected Performance assessment.

Pre-selected applications will be assessed in due consideration of the general principles of transparency, equal treatment and non-discrimination, in compliance with EIF’s policies, rules, procedures and statute and in conformity with best business and market practices. The EIF shall be bound by confidentiality terms published alongside this Call.

The EIF will assess the pre-selected applications, using professional analysis and judgment, based on the criteria set out in the Call relating to the Expected Performance, as further set out in section 5.2 of the Call. Each pre-selected Fund-of-Funds investment proposal will be assigned an Expected Performance score of: “A”, “B”, “C” or “D”, “A” being highest score and “D” the lowest score. Applications which are rejected on any stage of the EIF’s assessment process are scored as “D”.

The EIF will assess the pre-selected applications for Expected Performance following its standard assessment process encompassing the following phases:

- Screening
- Due Diligence\(^\text{12}\)
- Approval in accordance with EIF’s internal assessment and decision making rules

\(^{12}\) The decision to perform due diligence shall be at the discretion of the EIF.
4.3 Ranking and selection

Upon completion of the selection process outlined above, the EIF will decide whether each selected Fund-of-Funds investment proposal qualifies for an investment under the Programme. For this purpose the EIF shall rank all selected Fund-of-Funds investment proposals from 1 to 9 as set out below. Proposals assessed by the EC as having “Low” overall Policy Fit or proposals assessed by the EIF as having an Expected Performance of “D” shall be rejected and not ranked.

The funding will be allocated among the selected Fund-of-Funds investment proposals in the order of decreasing ranking (i.e. from Rank 1 to Rank 9) until the Programme funding is exhausted. The selected Fund-of-Funds investment proposals, to which the Programme funding was not allocated, are put on a reserve list until 31 December 2018 or such earlier date notified by the EIF to the relevant applicants. Should additional funding be available under the Programme or if any of the selected applicants to which funding has been allocated decide not to enter into the relevant agreement with the EIF under the Programme with respect to the Fund-of-Funds(s) or should the conditions for EIF commitment to the Fund-of-Funds(s) not be fulfilled by a selected Fund-of-Funds Promoter to which funding has been allocated, then such available amounts will be reallocated to the applicants in the reserve list in the order described above.

Each applicant will be informed in writing by the EIF about the outcome of the selection process with respect to its own application.

Those applicants, whose Expression of Interest is rejected at any stage of the selection process, shall have the right to submit a written complaint by e-mail and registered mail or professional courier service, to the same address used for the submission of the Expressions of Interest above, within thirty (30) days of receipt of the rejection notice. Any complaints will be dealt with within the framework of and in accordance with the EIB Group complaints policy.\textsuperscript{13}

4.4 Approval and signature

The EIF shall determine, at its discretion, the available amount and the funding sources to be allocated to the Fund-of-Funds under the Programme depending, inter alia, on the size and stage of the Fund-of-Funds, its investment strategy and its targeted investment sectors. The EIF will send to the selected Fund-of-Funds Promoter(s) a detailed termsheet with terms and conditions for a Programme Investment, based on, but not limited to the Fund-of-Funds terms set out in Schedule I of this Call.

Prior to entering into a transaction with the selected applicants, the selected investment proposals to be funded under the Programme shall be submitted by the EIF to its relevant decision making bodies for approval and shall be subject to such prior approval before finalising the contractual negotiation process with the Fund-of-Funds Promoters.

Only after approval by relevant EIF decision making bodies, may the appropriate contractual commitment to the Fund-of-Funds be entered into by EIF with the Fund-of-Funds Promoter(s). The terms of such agreement shall be in English.

5. The selection criteria

5.1 Policy Fit indicators

As indicated in the section 4.1 above, the proposed investment shall have a clear and demonstrated value added in terms of fit with the EU policies and objectives under the Programme. The EC will evaluate each investment proposal on the basis of the below indicators awarding individual scores for each indicator14.

a) Catalytic role of the envisaged investment in a Fund-of-Funds under the Programme in mobilising funding for the Fund-of-Funds, in particular from private institutional investors to the Fund-of-Funds.

“Medium” or higher score for this indicator will be awarded if, at and following a closing where EIF is expected to participate under the Programme, at least 50% of the Fund’s commitments are envisaged to come from Independent Private Investors, not taking into account EIF, EIB, and NPBs investing their own resources at own risk. This individual score shall therefore be positively impacted by a higher share of private sector commitments in the Fund-of-Funds.

b) The Fund-of-Funds targets to proactively invest in a large number of EU Member States or Associated Countries (where an assessment will be made based inter alia on its management team’s track-record, strategy, pipeline, office location and composition).

“Medium” or higher score for this indicator will be awarded if the Fund-of-Funds in its investment strategy targets to invest, through or alongside Investee Funds, at least 50% of the Aggregate Investable Amounts in at least 4 EU Member States or Associated Countries, out of which at least 3 Member States of the EU. Furthermore no single EU Member State or Associated Country shall account for more than 40% of the Aggregate Investable Amounts. This individual score shall therefore be positively impacted by a wider geographical coverage in the EU.

14 Each indicator above will be assessed at the Fund-of-Funds’ level, with the understanding that the Fund-of-Funds meets the listed criteria in 5.1 b), c), d) and e) indirectly on an aggregate level through the investments in underlying funds in which it expects to invest. To this end, the Fund will be required to agree to relevant undertakings to be inserted in the Fund’s contractual documentation.
c) The Fund-of-Funds targets to invest in Investee Funds with investment focus on EU Member States where, according to Invest Europe (formerly known as European Private Equity and Venture Capital Association - EVCA) (as published in its 2015 report on European Private Equity Activity) the industry statistics for private equity investment volumes as a percentage of GDP are below the European average\textsuperscript{15}.

“Medium” or higher score for this indicator will be awarded if the Fund-of-Funds' in its investment strategy targets to invest, through or alongside Investee Funds, at least 30% of the Aggregate Investable Amounts in such EU Member States. This individual score shall therefore be positively impacted by higher country coverage in such countries.

d) The investment focus of the Fund-of-Funds is on areas covered by the societal challenges and industrial leaderships of Horizon 2020, which include but are not limited to: ICT, medical technologies, biotechnologies, green technologies, nanotechnologies, resource efficiency, bio economy, health and demographics, climate change.

“Medium” or higher score for this indicator will be awarded if the Fund-of-Funds targets to invest, via Investee Funds, at least in one of the Horizon 2020 sectors or areas. This individual score shall therefore be positively impacted by wider coverage of Horizon 2020 sectors or areas.

e) The investment focus of the Fund-of-Funds aim at supporting Target Investees

“Medium” or higher score for this indicator will be awarded if the Fund-of-Funds' in its investment strategy targets to invest, through or alongside Investee Funds, at least an aggregate amount superior to the Minimum Allocation in the Target Investees. This individual score shall therefore be positively impacted by higher allocation to Target Investees.

f) Ability to support and develop sizeable VC funds - a target Fund-of-Funds’ size of at least EUR 500 million to be credibly achieved within 12 months, shall be considered as an indication of this ability.

“Medium” or higher score for this indicator will be awarded if the target Fund-of-Funds size is at least EUR 500 million to be credibly achieved within 12 months from the Fund-of-Funds’ closing in which the EIF is expected to participate under the Programme. This individual score shall therefore be positively impacted by a higher target Fund-of-Funds size and shorter time to target.

5.2. Expected Performance criteria

As part of the expected performance assessment, the EIF will analyse all the pre-selected applications based on but not limited to the following criteria:

Management Team

a) Relevant experience
b) Composition of the team, track record and balance of skills
c) Ability to provide relevant added value
