Overview of the Capacity Building

The Cultural and Creative Sectors Guarantee Facility aims to increase access to finance to SMEs and Small Public Enterprises (as defined in Annex II and III) active in the CCS through effective portfolio credit risk transfer - via a (Counter-) guarantee - and the provision of expertise, through technical assistance, knowledge-building and networking measures, on the CCS to Financial Intermediaries (via Capacity Building).

Capacity Building under the CCS GF is the provision of expertise to each Financial Intermediary (and related Financial Sub-Intermediaries, if applicable) (i) having signed a Guarantee Agreement with EIF under the CCS GF and (ii) having applied/opted in for it in the application process or at a later stage (subject to budget availability).

Financial Intermediaries willing to opt in to Capacity Building from the start of the period covered by the Guarantee Agreement would need to make a request – including in the form of an email - complying with the process and the conditions stipulated in the Appendix 2 of the Annex 1 of the Call for Expression of Interest, at the time of the submission of their Expression of Interest.

Annex IV to the Open Call for Expression of Interest to select Financial Intermediaries under the Cultural and Creative Sectors Guarantee Facility

Financial Intermediaries willing to opt in to Capacity Building at a later stage would need to raise a request, by means of a letter, complying with the process and the conditions stipulated in the Appendix 2 of the Annex 1 of the Call for Expression of Interest, at the time of their convenience.

In any case, Financial Intermediaries willing to opt in to Capacity Building will need to submit their request before the end of the Availability Period.

Optionally, in the case of Financial Intermediary operating under a (Counter-) Guarantee, Capacity Building could also target Financial (Sub-) Intermediaries. It will be the sole decision of the Financial Intermediary to let the Financial Sub-Intermediaries of its choice benefit from the Capacity Building, in accordance with the Eligibility criteria as set below.

For the purpose of delivering Capacity Building to those Financial Intermediaries having opted in to it, EIF has launched a process to contract a Capacity Building Provider (as defined below), and the Capacity Building activities would be made available for use by the Financial (Sub-) Intermediaries during the second quarter of 2018.

The Financial Intermediary shall agree to a specific set of undertakings linked to Capacity Building with the purpose of making the best use of it, as further described below. In the case of Financial (Sub-Intermediaries) receiving Capacity Building, the Financial Intermediary shall transpose those undertakings in its arrangements with the relevant Financial Sub-Intermediaries.

The Capacity Building Provider could typically be a creative and culture related agency, guarantee institution, bank, expert or consultant.

Capacity Building shall take into account the geographical specificities and the different CCS subsectors.

Main indicative terms

The main indicative terms of the delivery of Capacity Building are described below.

EU Policy Objective	<p>The cultural and creative sectors guarantee facility (the “Cultural and Creative Sectors Guarantee Facility” or “CCS GF”) aims at enhancing access to finance for SMEs in the Cultural and Creative Sectors through the provision of (Counter-) Guarantees. These Sectors count on specificities which make increasingly difficult the provision of finance to SMEs due to, <i>inter alia</i>, the intangible nature of their assets, prototype profile of their activities and the intrinsic need to take risks and experiment in order to innovate.</p> <p>Additionally, the CCS GF aims at improving the capacity of participating Financial Intermediaries to assess the risks associated with the CCS and with their projects through the provision of expertise in order to increase their understanding of the CCS (<i>inter alia</i> in aspects such as the intangible nature of collateral assets, the size of the market lacking critical mass, and the prototype nature of products and services). This provision of expertise takes place through the Capacity Building feature of the CCS GF. Financial Intermediaries receiving Guarantees may opt in to Capacity Building on a voluntary basis and free of charge.</p>
